About us

Metal4Craft Automation specializes in providing advanced industrial automation and metal fabrication solutions. They offer a range of products and services, including:

Entrance Automation Systems: Automatic glass doors, high-speed doors, rolling shutters, and security barriers like turnstiles and flap gates.

Custom Metal Fabrication: Includes stainless steel railings, automatic and manual gates, and general fabrication works.

Industrial Entrance Automation Solutions: Dock levelers, industrial fire-rated shutters, sectional garage doors, and other tailored engineering solutions.

The company emphasizes durability, reliability, and adherence to international safety and quality standards. Their services cover design, manufacturing, installation, and after-sales support to ensure complete customer satisfaction.

Metal4Craft Automation

Fabrication

Windows Grill:

At Metal4Craft Automation, we specialize in crafting premium MS (Mild Steel) and SS (Stainless Steel) window grills that enhance both the security and aesthetics of your property.

SS Railing

At Metal4Craft Automation, we specialize in offering high-quality SS (Stainless Steel) railings that seamlessly combine functionality, durability, and aesthetics. Crafted from premium stainless steel, our railings deliver exceptional strength and style, suitable for both residential and commercial applications.

MS Railing

At Metal4Craft Automation, we craft high-quality MS (Mild Steel) railings that seamlessly blend strength, style, and security. Perfect for residential, commercial, and industrial spaces, our railings enhance both the safety and aesthetic appeal of your property.

Mangalore Roof Tiles Fabrication

At Metal4Craft Automation, we offer comprehensive Mangalore Roof Tiles Fabrication and Installation services, blending the timeless elegance of traditional roofing with modern craftsmanship. Our expert team ensures superior quality, durability, and aesthetic appeal with a seamless solution from fabrication to installation.

Glass Partition

At Metal4Craft Automation, we design and install premium-quality glass partitions that combine aesthetics, functionality, and flexibility. Perfect for offices, homes, and commercial properties, our glass partitions provide a sleek, modern solution that optimizes natural light while ensuring privacy.

Aluminium Partition

At Metal4Craft Automation, we specialize in high-quality aluminium partitions that combine functionality, durability, and modern design. Ideal for offices, commercial spaces, and residential interiors, our aluminium partitions optimize space, enhance privacy, and offer a sleek, contemporary look.

Glass Glazing Works

At Metal4Craft Automation, we specialize in Glass Glazing Works that seamlessly combine aesthetic appeal with practical functionality for residential, commercial, and industrial spaces. Our premium glazing services include the installation of energy-efficient glass, safety glass, and decorative glass to enhance both the look and performance of your building.

Invisible Grill

At Metal4Craft Automation, we offer Nylon Coated Invisible Grills that perfectly blend strength, security, and aesthetic appeal. Our innovative grills provide superior protection while maintaining a sleek and unobtrusive design. Ideal for both residential and commercial spaces, they deliver long-lasting durability and enhance the visual appeal of your property without compromising views or exterior aesthetics.

Shower Cubicle

At Metal4Craft Automation, we specialize in designing and installing premium shower cubicles that combine style, comfort, and functionality. Whether you're renovating your bathroom or building a new one, our shower cubicles are crafted to enhance your bathing experience while elevating the overall look of your bathroom.

Metal4Craft Automation

Upvc Works

Collapsible Gate

MS Gate

At Metal4Craft Automation, we specialize in UPVC (Unplasticized Polyvinyl Chloride) Fabrication, offering high-quality, energy-efficient, and durable solutions for your doors, windows, and other structural needs. UPVC is an ideal material for homes, offices, and commercial buildings due to its exceptional performance, low maintenance, and long-lasting benefits.

At Metal4Craft Automation, we specialize in Collapsible Gates (Channel Gates) that combine superior security, space efficiency, and aesthetic versatility. Ideal for both residential and commercial properties, our channel gates are designed to provide high-level protection while saving valuable space and ensuring smooth, convenient operation.

At Metal4Craft Automation, we specialize in MS (Mild Steel) Gates that combine security, durability, and aesthetic appeal for your home, office, or industrial property. Whether you're looking to secure a residential property or enhance the entryway of a commercial establishment, our Mild Steel Gates are designed to provide long-lasting

Safety Gate

Structural Work

At Metal4Craft Automation, we understand the importance of ensuring safety and security in your home, business, or industrial environment. Our Safety Gates are designed to provide an extra layer of protection, combining strong materials with advanced security features to keep your space safe while maintaining functionality and style.

At Metal4Craft Automation, we specialize in providing high-quality structural work fabrication services for residential, commercial, and industrial projects. Our fabrication services include steel frames, beams, columns, trusses, and other key structural components designed to ensure the safety, stability, and longevity of your building or infrastructure.

Whether you're constructing a new facility, expanding an existing structure, or need modifications, we offer comprehensive, customized fabrication solutions tailored to your specific project requirements.

HPL Cladding

Metal4Craft Automation

Rolling Shutter

Aluminium Rolling Shutter

At Metal4Craft Automation, we specialize in designing, fabricating, and installing Aluminium Rolling Shutters that combine durability, security, and aesthetic appeal. Ideal for commercial, industrial, and residential properties, our aluminium shutters provide an effective solution for protecting your property while maintaining a modern and sleek appearance.

Automatic Rolling Shutter

At Metal4Craft Automation, we specialize in designing, manufacturing, and installing Automatic Rolling Shutters that provide an ideal combination of convenience, security, and modern functionality. Perfect for commercial, industrial, and residential properties, our automatic rolling shutters offer an advanced solution for effortless access control and protection.

Fire Rated Rolling Shutter

At Metal4Craft Automation, we specialize in designing and installing Fire Rated Rolling Shutters that provide an essential barrier against the spread of fire and smoke while offering seamless functionality. Our fire-rated shutters are ideal for commercial, industrial, and residential properties where safety is a top priority. These shutters are engineered to meet stringent fire protection standards and provide reliable performance in case of emergencies.

Gear Rolling Shutter

At Metal4Craft Automation, we offer Gear Rolling Shutters that combine reliability, durability, and ease of use. Whether you prefer a hand-operated or mechanically operated system, our gear rolling shutters are designed to provide seamless security, smooth operation, and robust protection for residential, commercial, and industrial properties.

Grill Rolling Shutter

At Metal4Craft Automation, we specialize in Grill Rolling Shutters that offer the perfect blend of security, visibility, and durability. Ideal for commercial, residential, and industrial applications, our grill rolling shutters provide a secure barrier while allowing visibility and ventilation. These shutters are designed to safeguard your property while maintaining an open and inviting look.

MS Rolling Shutter

At Metal4Craft Automation, we specialize in MS (Mild Steel) Rolling Shutters that provide unbeatable security and durability for your property. Perfect for commercial, residential, and industrial applications, our MS rolling shutters are designed to withstand high traffic, extreme weather conditions, and ensure reliable protection for your space.

Perforated Shutter

At Metal4Craft Automation, we offer Perforated Rolling Shutters that combine robust security with enhanced visibility and ventilation. These shutters are ideal for businesses and commercial properties where security is crucial, but visibility and airflow are also important. The perforated design allows for an elegant, modern look while providing the safety you need.

Polycarbonate Rolling Shutter

At Metal4Craft Automation, we specialize in Polycarbonate Rolling Shutters that offer an innovative blend of durability, security, and transparency. Designed to provide robust protection while allowing light to pass through, these shutters are perfect for applications where visibility, natural light, and security are equally important.

PUFF Insulated Rolling Shutter

At Metal4Craft Automation, we offer PUFF Insulated Rolling Shutters that provide an ideal combination of insulation, security, and durability. Crafted using advanced PUFF (Polyurethane Foam) technology, these shutters are designed to keep your property secure while providing excellent thermal and acoustic insulation, making them a perfect choice for a wide range of commercial, industrial, and residential applications.

SS Rolling Shutter side motor

Metal4Craft Automation

Gate Fabrication

Cantilever Sliding Gate

At Metal4Craft Automation, we specialize in crafting and installing premium Cantilever Sliding Gates designed for maximum security, durability, and aesthetic appeal. Perfect for both residential and commercial properties, our cantilever gates provide a smooth, space-efficient solution for controlling access without compromising on style.

Curve Sliding Gate

At Metal4Craft Automation, we specialize in designing and installing high-quality Curve Sliding Gates that offer a unique combination of elegance, security, and functionality. Ideal for both residential and commercial properties, these gates are designed with a curved aesthetic that enhances the visual appeal of your property while providing smooth, reliable access control.

Garage Door – Curve Sliding Gate with Top Track

At Metal4Craft Automation, we specialize in crafting and installing innovative Curve Sliding Garage Doors featuring Top Hanging & T-Bearing Top Track systems. This unique solution combines functionality, durability, and aesthetic appeal, offering an ideal choice for both residential and commercial properties. The top-hanging design ensures smooth operation, reliability, and a space-efficient solution for controlling access to your garage or property.

Industrial Gate Automation

At Metal4Craft Automation, we specialize in providing advanced Industrial Gate Automation solutions designed to enhance security, efficiency, and convenience. Our automated systems are perfect for factories, warehouses, and industrial properties, offering reliable, easy-to-operate gates that integrate seamlessly with your operations.

MS Gate

At Metal4Craft Automation, we specialize in designing and manufacturing high-quality MS Gates (Mild Steel Gates) that offer both robust security and aesthetic appeal. Perfect for residential, commercial, and industrial properties, our MS gates combine durability, functionality, and a customizable design to suit any property style.

Sectional Garage Door

At Metal4Craft Automation, we specialize in designing, fabricating, and installing high-quality Sectional Garage Doors that combine superior security, aesthetic appeal, and functionality. Ideal for residential, commercial, and industrial properties, our sectional doors offer smooth, efficient operation while optimizing space and providing long-lasting protection.

SS Gate Fabrication

At Metal4Craft Automation, we specialize in the fabrication of high-quality Stainless Steel (SS) Gates that offer the perfect combination of security, durability, and modern design. Our SS gates are custom-built to meet your specific needs, whether for residential, commercial, or industrial properties, providing both protection and aesthetic appeal.

Swing Bi-folding Gates

At Metal4Craft Automation, we specialize in designing and installing Swing Bi-Folding Gates that combine the elegance of traditional swing gates with the space-saving benefits of bi-folding technology. Ideal for residential, commercial, and industrial properties, our swing bi-folding gates provide enhanced security, smooth operation, and a modern aesthetic for any entryway.

Telescopic Sliding Gate

At Metal4Craft Automation, we specialize in designing and installing Telescopic Sliding Gates that provide an efficient, space-saving solution for secure access. Perfect for residential, commercial, and industrial properties, our telescopic sliding gates offer enhanced security, smooth operation, and a modern aesthetic, making them an ideal choice for properties with limited space.

Metal4Craft Automation

Entrance Automation

Bollard

At Metal4Craft Automation, we offer a wide range of Bollards designed to enhance security, manage traffic flow, and protect property. Whether for residential, commercial, or industrial spaces, our bollards are crafted to provide durability, functionality, and aesthetic appeal.

Boom Barrier

At Metal4Craft Automation, we specialize in designing, fabricating, and installing high-quality Boom Barriers that provide effective and reliable access control solutions for various applications. Our boom barriers are ideal for residential, commercial, and industrial spaces, offering convenience, security, and smooth operation.

Dock leveler

At Metal4Craft Automation, we specialize in providing high-quality Dock Levelers that ensure smooth and efficient loading and unloading operations in warehouses, distribution centers, and industrial facilities. Our dock levelers are designed to bridge the gap between loading docks and truck beds, offering a safe and seamless transition for goods handling.

Electric Door Lock

At Metal4Craft Automation, we provide Electric Door Locks that combine advanced security features with user-friendly functionality. Designed to offer reliable access control for residential, commercial, and industrial properties, our electric locks ensure maximum protection while offering the convenience of keyless entry.

Fire Rated Doors

At Metal4Craft Automation, we specialize in providing high-quality Fire Rated Doors designed to offer maximum protection against the spread of fire, smoke, and heat. These doors are ideal for use in residential, commercial, and industrial settings where fire safety is a priority. Our fire-rated doors are rigorously tested to ensure they meet international fire safety standards, providing peace of mind and safety for your property and its occupants.

Flap Barrier

At Metal4Craft Automation, we specialize in providing state-of-the-art Flap Barriers designed to offer seamless, secure access control for high-traffic areas. Our flap barriers are ideal for locations such as offices, airports, metro stations, commercial buildings, and public spaces, where security and smooth flow of people are essential. With their advanced technology, sleek design, and ease of use, flap barriers provide a reliable solution for managing pedestrian access and preventing unauthorized entry.

High Speed Rolling Shutter

At Metal4Craft Automation, we offer High-Speed Rolling Shutters that provide an efficient, secure, and seamless solution for entrances in high-traffic areas. Ideal for commercial, industrial, and residential applications, our high-speed shutters combine robust security with rapid operation, ensuring maximum protection without compromising on speed or efficiency. Whether you need to secure a warehouse, parking area, or storefront, our high-speed rolling shutters are designed to meet your needs.

Retractable Gate

At Metal4Craft Automation, we specialize in providing high-quality Retractable Gates that combine security, convenience, and space-efficiency. Perfect for both residential and commercial applications, our retractable gates offer a flexible solution to secure entryways, garages, or any area where access control is essential. With their compact design, these gates are ideal for properties where space is limited but robust security is still needed.

Turnstiles

At Metal4Craft Automation, we specialize in providing high-quality Retractable Gates that combine security, convenience, and space-efficiency. Perfect for both residential and commercial applications, our retractable gates offer a flexible solution to secure entryways, garages, or any area where access control is essential. With their compact design, these gates are ideal for properties where space is limited but robust security is still needed.

Tyre Killer

At Metal4Craft Automation, we offer high-quality Tyre Killers designed to provide an effective, secure, and efficient solution for controlling vehicle access to restricted areas. Whether for high-security zones, industrial sites, government buildings, or private properties, our tyre killers provide a physical deterrent to unauthorized vehicles while ensuring ease of access for authorized personnel.

Video Door Phone

At Metal4Craft Automation, we offer state-of-the-art Video Door Phones designed to enhance the security and convenience of your home or office. Our video door phones allow you to visually verify visitors before granting access, providing a heightened level of safety and peace of mind. Perfect for residential, commercial, and industrial properties, our video door phones combine advanced technology with sleek design to offer a comprehensive security solution.
